Lintara

Station Intelligence

Brand guidelines

2026

Brand purpose

A station plan connects movement and space

Lintara helps operators and tenants see how a location, timetable or service change affects people and commercial activity.

Movement

People arrive, pass through and stop to visit.

Space

Routes and storefronts shape each decision.

Decision

Compare a change before committing to it.

Personality and voice

Clear language helps people understand a choice and its result.

Clear	Name the action	**Place a shop** Tempatkan toko
Capable	Name the measure	**Average wait** Rata-rata antre
Approachable	Confirm the result	**Plan saved** Rencana tersimpan

Primary logo

The horizontal signature is the default for the application header, reports and brand communication.

Logo rationale

An L with an open corridor

The navy path anchors the initial. The orange corner marks an opening, while the gap keeps the shape readable at small sizes.

Simple silhouette

Two solid colours. No gradients or extra detail.

Logo variants

Horizontal

Stacked

Symbol

Monochrome

White reverse

Clear space and minimum size

x is 14 units on the 104-unit symbol canvas. Keep at least x of empty space around every signature.

Clear-space boundary

Lintara **128 px horizontal**

24 px symbol

Print: horizontal 28 mm minimum. Browser favicons are supplied at 16 and 32 px.

Background usage

Choose a version that preserves the symbol and wordmark.

Light background

Navy background

Incorrect usage

The supplied master keeps the geometry and colour consistent.

01 Stretching

02 Recolouring

03 Low contrast

04 Added effects

05 Crowded space

06 Missing pieces

Colour palette

	HEX	RGB	ROLE
Navy	#243B75	36, 59, 117	Brand and navigation
Orange	#F47B20	244, 123, 32	Selected actions
Background	#F5F7FB	245, 247, 251	Page canvas
Ink	#17233D	23, 35, 61	Primary text
Muted	#667085	102, 112, 133	Secondary text
Positive	#21866B	33, 134, 107	Positive markers

White on navy 10.73:1. Ink on orange 5.73:1. Use orange for accents and ink for text on white.

Typography

Arial

Arial is the system sans-serif. Use Nimbus Sans or the platform sans-serif when Arial is unavailable.

Regular 400 **Medium 600** **Bold 700**

0123456789

15 px body

12 px supporting labels

24-32 px page titles

Tabular numerals for metrics

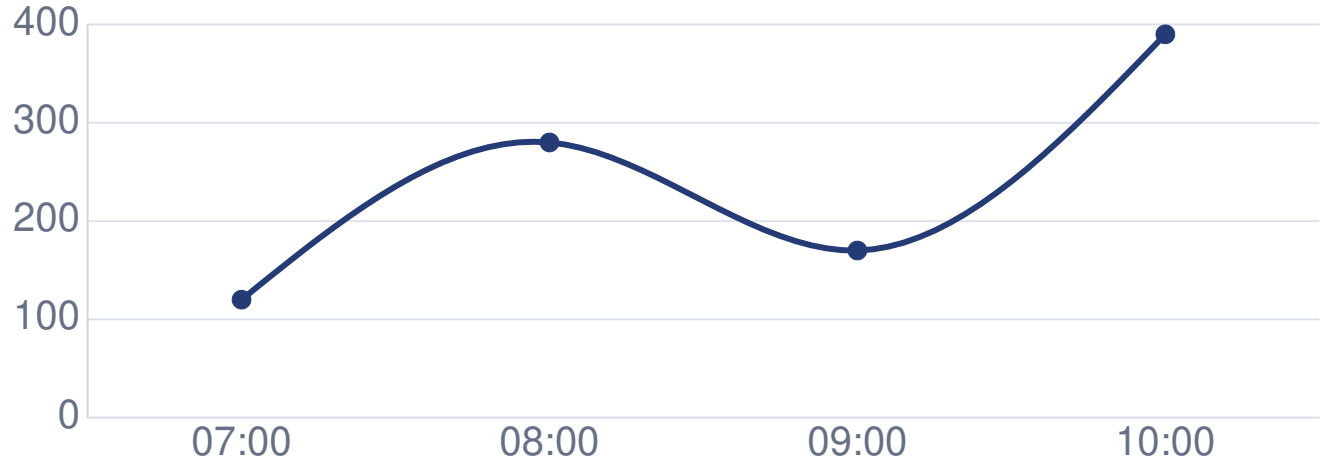

Keep the wordmark as supplied vector artwork. Its outlined letters are separate from interface type.

Icons and information graphics

Station **Tenants** **Overview** **Average wait**

24 px grid. 2 px stroke. Labels carry the meaning.

People present

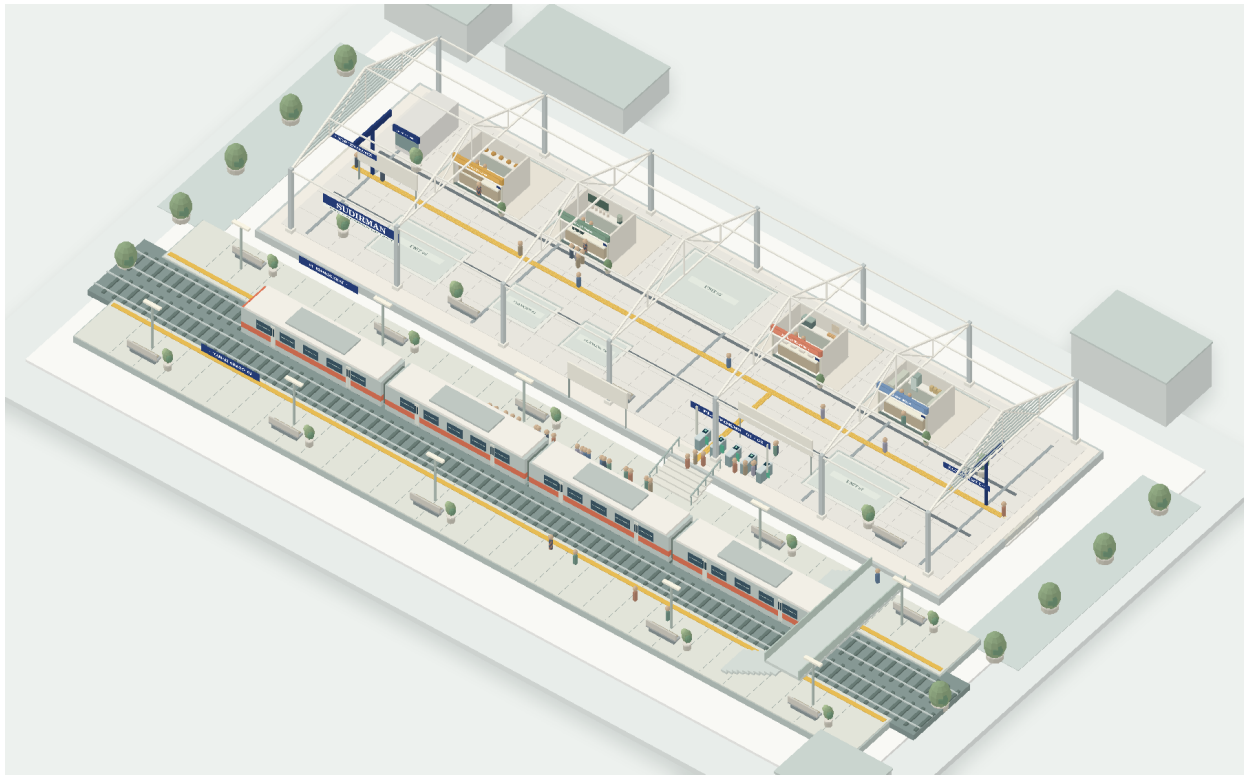

Plan saved

Pair status colours with text. Keep time and units visible near every chart.

Illustrative design sample

3D world style

Station geometry example

Readable architecture

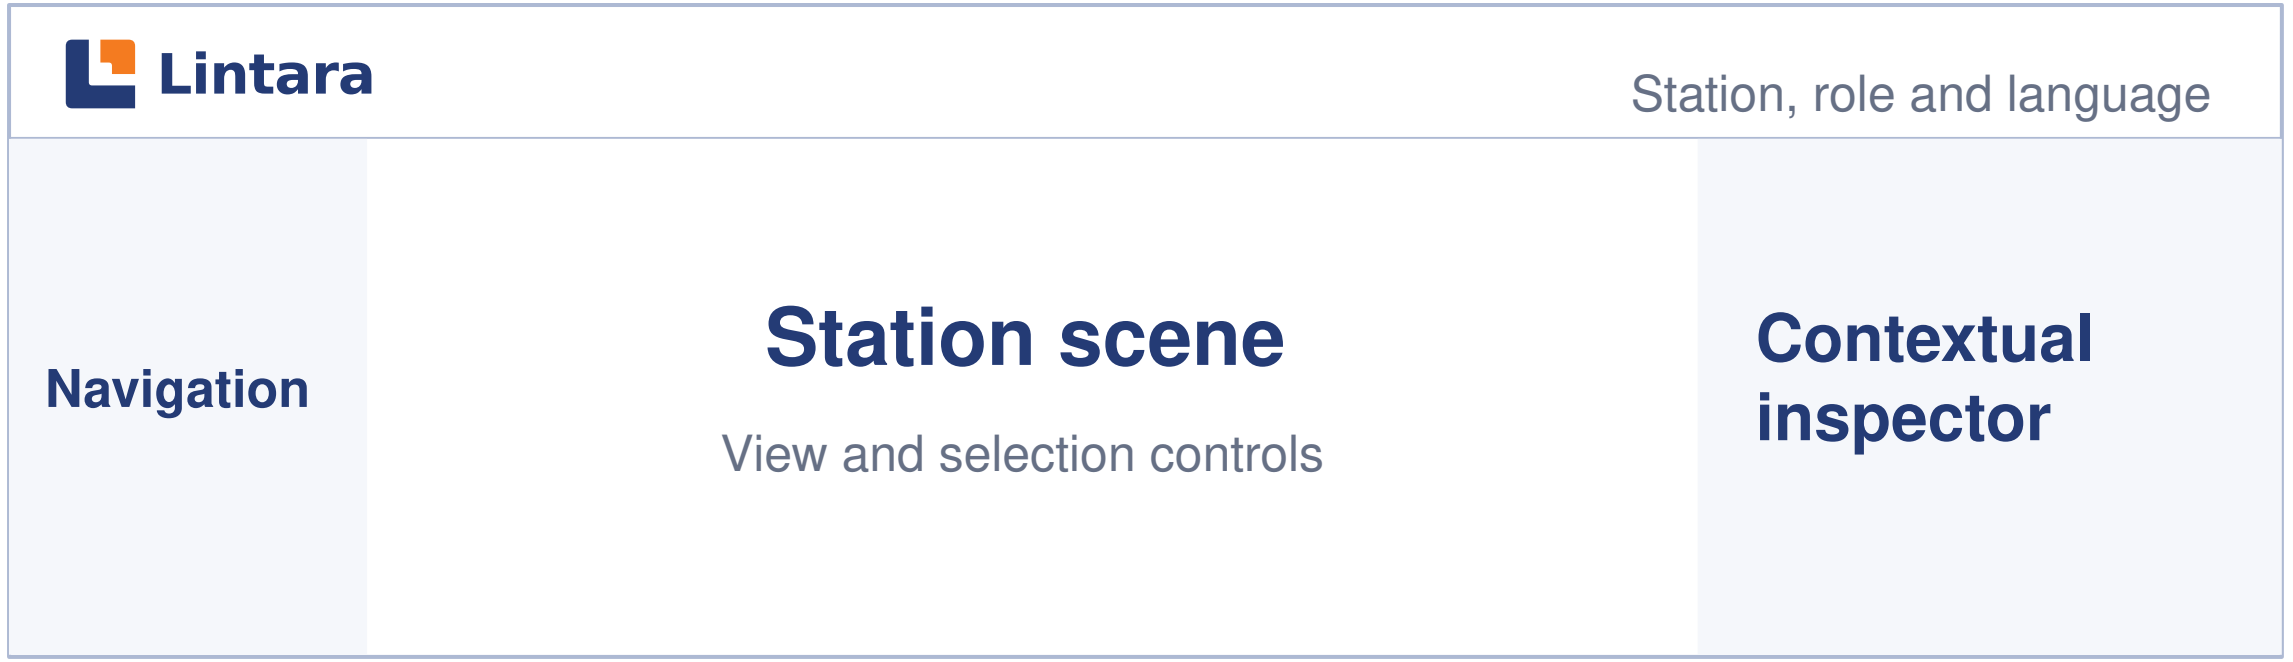

Pale roof trusses and a cream hall keep routes visible.

Simple characters

A rounded head and compact body show movement with restrained detail.

Application specifications

My business

Visits and contribution describe the business. Busy periods and service settings guide a staffing comparison.

Choose a location

Compare up to three spaces using the same concept, model window and demand seed.

Phone layout specification

Implementation reference

One identity source keeps the interface, exports and guide aligned.

Asset or rule	Use
brand-tokens.json	Approved colours and system font stack
Horizontal SVG	Header, reports and desktop identity
Symbol SVG and favicon	Compact navigation and browser tab
PNG transparent exports	Office files and raster workflows
White reverse SVG	Identity on a navy field

8 px spacing rhythm

Generous content margins

Lintara is an independent brand. Station context does not imply operator endorsement.
